

## **CALL FOR PAPERS**

### ***Invited Session on technologies for Next-Generation Network Environments***

Networks have become the foundation of new services. We are seeing integration of heterogeneous networks that provide data close to people. The goal of this special issue is to collect high-quality papers related to technologies for next-generation network environments. This special issue welcomes researchers from both academia and industry to provide solutions. Papers for this special issue is soliciting contributions to topics including but not limited to:

1. Internet of Things
2. Smart GRID
3. Cloud Computing
4. Social Networks
5. RFID
6. Vehicular Ad-hoc Network (VANETs)
7. Self-organized Network (e.g., Sensor Network)
8. Other networks

All papers are submitted electronically in PDF format to the special session organizers. Details of the required paper format are available at the ICGEC2014 website (<http://bit.kuas.edu.tw/~icgec14/>). For further information, please contact

Special Session Organizers:

#### **Chien-Ming Chen**

Innovative Information Industry Research Center (IIIRC)

School of Computer Science and Technology

Harbin Institute of Technology Shenzhen Graduate School Shenzhen, China,

chienming.taiwan@gmail.com

#### **Tsu-Yang Wu**

Innovative Information Industry Research Center (IIIRC)

School of Computer Science and Technology

Harbin Institute of Technology Shenzhen Graduate School Shenzhen, China,

wutsuyang@gmail.com

#### **Mu-En Wu**

Department of Mathematics, Soochow University, Taiwan

mn@scu.edu.tw

#### **Raylin Tso**

Department of Computer Science

National Chengchi University, Taiwan,
