

*Fourth International Conference on Innovative Computing, Information and Control  
(ICICIC-2009)  
December 7-9, 2009, Kaohsiung, Taiwan*

## **Call for Papers** **Computer Technologies for Intelligent Systems**

**Session Organizers: Prof. Z. Zhang, Prof. K. Inoue and Prof. S. Ishimitsu**

We are organizing a special session on Computer Technologies for Intelligent Systems for ICICIC 2009, which will be held on December 7-9, 2009, in Kaohsiung, Taiwan. This session serves as an international forum for academic and industrial researchers and practitioners to discuss the application of new computer technologies to intelligent systems. The main objective of this session is to bring together researchers to exchange ideas and experience related to the fields. It will provide an international forum for an overview of the most recent trends in the active research fields and a common starting-point to tackle the most acute problems of intelligent processing and intelligent technology.

Interested topics areas include (but not limited to):

- Intelligent Translate System
- Intelligent diagnostics System
- Intelligent Control System
- Intelligent Transport System
- Fuzzy Systems
- Neural networks
- Computer-Aided System
- Signal and image processing
- Intelligent Technology

### **Important Dates:**

Deadline for paper submission: May 1<sup>st</sup>, 2009

Notification of acceptance: June 15<sup>th</sup>, 2009

Deadline for camera-ready manuscript submission: July 15<sup>th</sup>, 2009

### **Submission of papers:**

Papers are invited from prospective authors with interest on the related areas. Each paper should follow the IEEE format with title, author's names, affiliation, email addresses, an up to 150-words abstract, and a two-column body with 4 single-spaced pages and with font size at 10 pts. All papers must be submitted electronically in PDF format only and be mailed to:
