**Invited Session on Intelligent Computing and Applied Statistics**

**Session Organizers : Prof. Feng-Tse Lin and Prof. Tzong-Ru Tsai**

We are organizing a special session on Intelligent Computing and Applied Statistics for ICICIC 2009, which will be held in Kaohsiung, Taiwan on December 7-9, 2009. This session deals with pushing the development and applications of Intelligent Statistics in engineering, business, economics, medicine, education and other related disciplines. The general approaches used for intelligent statistics include genetic algorithms, neural networks, fuzzy logic and rough set theory, etc. Topics of interest include, but are not limited to:
