

## **Session Organizer: Prof. Michael Basin**

I am organizing a special session on **Identification for Optimization in Nonlinear Systems** (abbreviated as **IONS**) for ICICIC 2009, which will be held in Kaohsiung, Taiwan, on December 7 – 9, 2009. This session deals with new methodologies for state and parameter identification, filtering, optimization, dynamic games, and sliding mode control in nonlinear systems. Topics of interest include but are not limited to:

1. Optimal Joint State and Parameter Identification
2. Optimal Filtering
3. Optimization Techniques
4. Dynamic Games
5. Sliding Mode Control
6. Identification Methods for Nanotechnology
7. Risk-Sensitive Methods

### **Submissions:**

Papers are invited from prospective authors with interest on the related areas. Each paper should follow the IEEE format with title, author's names, affiliation, email addresses, an up to 150-words abstract, and a two-column body with 4 single-spaced pages and with font size at 10 pts. All papers must be submitted electronically in PDF format only and be mailed to [mbasin@cfm.uanl.mx](mailto:mbasin@cfm.uanl.mx) and [mbasin2007@gmail.com](mailto:mbasin2007@gmail.com) .

### **Important Dates:**

Deadline for paper submission ----- **May 1, 2009**

Notification of acceptance ----- **June 15, 2009**

Deadline for camera-ready manuscript submission ----- **July 15, 2009**

### **For more information please contact:**
