

FOURTH INTERNATIONAL CONFERENCE ON INTELLIGENT INFORMATION HIDING AND MULTIMEDIA SIGNAL PROCESSING (IIHMSP08)

August 15 – 17, 2008

Harbin, CHINA

CALL FOR PAPERS

SPECIAL SESSION : INTELLIGENT VIDEO PROCESSING

This session deals with new technologies for intelligent algorithms and architectures for video processing. Topics of interest include, but are not limited to:

1. Motion Detection, Estimation, Tracking and Flow-Counting
2. Object or Person Identification
3. Suspicious Behavior Analysis and Recognition
4. Visibility Enhancement
5. VLSI or SOC for Video Processing

This special session combines advanced research themes in intelligent systems, informatics, signal processing, as well as sensors design and development. The special session will provide an international forum for researchers and academicians in the fields of soft computing (neural networks, fuzzy systems, evolutionary computing, support vector machines, swarm intelligence, etc.), intelligent sensors, sensor fusion, bioinformatics, biometrics, radar signal processing, and intelligent multimedia processing.

Full Paper Due Date: Feb. 15, 2008

Notification: Mar. 31, 2008

Camera-ready Paper Deadline: Apr. 30, 2008

SUBMISSION OF PAPERS

Papers are invited from prospective authors with interests in this particular special session and related areas of application. All contributions should be original and not published elsewhere or intended to be published during the review period. Contributions from more applied related fields in industry and commerce are very welcome. All papers are to be submitted electronically in PDF format to the special session organizer. Details of the required paper format are published at the official IIHMSP08 website (<http://bit.kuas.edu.tw/~iihmSP08/>).

For further information, please contact:

Special Session Organizer:

Prof. Chao-Ho (Thou-Ho) Chen
Department of Electronic Engineering
National Kaohsiung University of Applied Sciences
415 Chien-kung Road, Kaohsiung, 807, Taiwan R. O. C.
