

**FIFTH INTERNATIONAL CONFERENCE ON INTELLIGENT
INFORMATION HIDING AND MULTIMEDIA SIGNAL
PROCESSING (IIHMSP09) September 12–14, 2009
Kyoto, Japan**

CALL FOR PAPERS

***SPECIAL SESSION : The Visual Based Context
Awareness Computing***

Context-awareness was first introduced by Schilit in 1994. Over the past two decades, context awareness has greatly evolved from its location-awareness roots to include properties such as situation, user, environmental properties, etc. Context awareness has spread to the computer and engineering sciences, with the goal of making systems more human-centric. In general, context is any information that can be used to characterize the situation of an entity. Among these collectable contexts, vision related contexts provide richer and higher-level information. Hence, it is worth exploring the related researches and applications. The goal of this session is to address and discuss the technical challenges and research results in visual context-aware computing. It brings together researchers working across this field to share their experience and discuss advanced techniques. Topics of interest include, but are not limited to:

1. Human Computer Interaction
2. Home Care Applications
3. Health Care Applications
4. Intelligent Transportation Systems
5. Behavior Analysis
6. Visual Surveillance
7. Visual Ubiquitous Computing
8. Other applications

Paper Submission:

All contributions should be original and not published elsewhere or intended to be published during the review period. To ensure high quality, all papers will be reviewed. Each paper should follow the IEEE paper format with title, authors' names, affiliations and email addresses, an up to 150-words abstract, and a two-column body with 4 single-spaced pages and with font size at 10 pts. All papers must be submitted electronically in PDF format only. Before submitting your papers, please register to get the user ID and password for the paper submission. Details of the required paper format are published at the official IIHMSP09 website (<http://bit.kuas.edu.tw/~iihmosp09/>).

Important Dates:

Submission of Manuscripts: March 5, 2009

Notification of Acceptance: April 30, 2009

Submission of Camera-ready Papers: May 31, 2009

*The Conference Proceedings will be published by IEEE Press.
Extended versions of selected papers in this session will be published in
Information-An International Interdisciplinary Journal (SCI-E)*

For more information please contact:

Special Session Organizer:

Jiann-Shu Lee

Associate Professor, Department of Computer Science and Information Engineering

National University of Tainan

33, Sec. 2, Shu-Lin St. Tainan, 700, Taiwan

Tel: (886)6-2606123 Ext. 7803

Fax: (886)6-2606125

E-mail: cslee@mail.nutn.edu.tw
