

FIFTH INTERNATIONAL CONFERENCE ON INTELLIGENT
INFORMATION HIDING AND MULTIMEDIA SIGNAL PROCESSING
(IIHMSP09)

September 12 – 14, 2009
Kyoto, JAPAN

CALL FOR PAPERS

SPECIAL SESSION: RECENT TECHNOLOGIES AND APPLICATIONS
OF AUDIO DATA HIDING

Nowadays, audio data hiding technology enhances its validity not only in a field of watermarking for copyright protection but also in another field of various applications. Novel and advanced technologies are required for enforcement of new applications. This invited session aims at discussing recent research results in technique and application of audio data hiding, such as watermarking, steganography, communication, information retrieval, and so forth. This session will be consisted of presentations by experts, researchers and application venders in the fields of multimedia information processing and audio signal processing and analysis.

Full Paper Due Date: March 15, 2009

Notification: May. 1, 2009

Camera-ready Paper Deadline: June. 1, 2009

SUBMISSION OF PAPERS

Papers are invited from prospective authors with interests in this particular special session and related areas of application. All contributions should be original and not published elsewhere or intended to be published during the review period. Contributions from more application-oriented fields in industry and commerce are very welcome. All papers are to be submitted electronically in PDF format to the special session organizers. Details of the required paper format are published at the official IIHMSP09 website (<http://bit.kuas.edu.tw/~iihmSP09/>).
