

**THE FIFTH INTERNATIONAL CONFERENCE ON INTELLIGENT
INFORMATION HIDING AND MULTIMEDIA SIGNAL PROCESSING
(IIHMSP09)**

September 12 - 14, 2009 Kyoto, Japan

CALL FOR PAPERS

**SPECIAL SESSION: ADVANCED REVERSIBLE DATA HIDING AND
STEGANALYSIS**

For the last twenty years, Information Hiding has captured the interest of researchers: Digital watermarking as core primitives in Digital Rights Management schemes; and steganography as an important role in anonymous communication systems. Even though the research on Information Hiding technologies began twenty years ago, most of the existing schemes focus on watermarking and steganography and are inadequate to protect multimedia and specific applications. Of particular interest is the protection of visual signals due to the difficulty in extracting semantic information from them. This special session combines advanced research themes in reversible data hiding and steganalysis. The special session will provide an international forum for researchers and specialists in the fields of image processing, steganography and digital watermarking.

Submission Due Date: April 5, 2009

Date for Notification: May 10, 2009

Camera-ready Paper Deadline: May 31, 2009

SUBMISSION OF PAPERS

Papers are invited from prospective authors with interests in this particular special session and related areas of application. All contributions should be original and not published elsewhere or intended to be published during the review period. Contributions from more applied related fields in industry and commerce are very welcome. All papers are to be submitted electronically in PDF format to the special session organizers. Details of the required paper format are published at the official IIHMSP09 website (<http://bit.kuas.edu.tw/~iihmosp09/>) or (<http://www.iipl.is.ritsumei.ac.jp/iihmosp2009/>)..
