

FIFTH INTERNATIONAL CONFERENCE ON INTELLIGENT INFORMATION  
HIDING AND MULTIMEDIA SIGNAL PROCESSING (IIHMSP2009)

September 12-14, 2009

Kyoto, Japan

Call for Papers

Special Session: Application of Intelligent Computing to Signal and Image Processing

Theories and techniques of intelligent computing have been successfully applied to a wide range of complex problems. The objective of this special session is to provide a forum for academics and industrial professionals to contribute and to disseminate innovative and important new work in the applications to signal and image processing.

Topics of interest include but are not limited to:

- Image object detection
- Classification of noisy data
- Signal/image feature extraction and selection
- Biological/ Medical Signal/Image Processing and Analysis
- Neural network theories and applications

Submission of Papers

Papers are invited from prospective authors with interests in the related areas. All contributions should be original and not published elsewhere or intended to be published during the review period. Contributions from multidisciplinary research fields are especially welcomed. **Submissions of full papers should be made directly to the session chairs by the following email address: [zengx@fvsu.edu](mailto:zengx@fvsu.edu).** Details of the required paper format are published at the official IIHMSP09 website (<http://bit.kuas.edu.tw/~iihmSP2009/>).

Important Dates

Full paper Due Date: **April 1, 2009**

Notification Date: April 30, 2009

Camera-ready Paper Deadline: May 31, 2009

For further information please contact:

Special Session Organizer

Dr. XiangYan Zeng (zengx@fvsu.edu)

Department of Mathematics and Computer Science

Fort Valley State University

1005 State University Dr., Fort Valley, GA 31030, USA
