

**The Sixth International Conference on Intelligent Information
Hiding and Multimedia Signal Processing (IIHMSP2010)
held on Oct. 15-17, 2010 at Darmstadt, German**

Call for Paper

Special Session on Advanced Techniques for Visual Surveillance

Visual surveillance has become an increasingly important research topic. This session aims on bringing together researchers working across fields such as computer vision, pattern recognition, and multimedia processing, to share their experience and research results in the new techniques of visual surveillance. The topics of interest include, but are not limited to:

- Object and event detection, recognition for visual surveillance
- Behavior analysis for visual surveillance
- Video enhancement for visual surveillance
- Content-based retrieval for visual surveillance
- Video coding, transcoding, and transmission for visual surveillance
- Human-machine interaction/interface for visual surveillance

SUBMISSION:

Papers are invited from prospective authors with interests on the related areas. All contributions should be original and not published elsewhere or intended to be published during the review period. Details of the required paper format are published at the official IIHMSP'10 website (<http://bit.kuas.edu.tw/~iihmosp10/>). All papers must be submitted electronically in PDF format only and mailed to ykwang@mails.fju.edu.tw.

Important Dates:

Full paper due date	April 4, 2010
Notification of acceptance	May 31, 2010
Camera-ready copies	July 2, 2010

For more information please contact

Special Session Organizer:

Dr. Yuan-Kai Wang, ykwang@mails.fju.edu.tw

Department of Electronic Engineering, Fu Jen University,

No.510 Jung-Jeng Rd. Sin-Jhuang, Taipei County, 24205, Taiwan R.O.C.
