

SIXTH INTERNATIONAL CONFERENCE ON INTELLIGENT INFORMATION

HIDING AND MULTIMEDIA SIGNAL PROCESSING

(IIHMSP10)

October 15-17, 2010

Darmstadt, Germany

CALL FOR PAPERS SPECIAL SESSION: Data Mining

Data Mining is a multidisciplinary cross area with wide applications in industry, business, government and education. In this session, we are aimed to gather papers from a wide range of data mining related areas such as database and data warehousing, statistics, computational intelligence, pattern recognition, machine learning, data visualization and etc. We hope to advance the state of the art in data mining field and its various applications. We invite you to submit high quality papers that present challenging and innovative results. The topics include, but are not limited to:

- Databases and Data Warehousing
- Bioinformatics
- Classification
- Clustering
- Parallel and distributed data mining algorithms
- Data streams mining
- Graph mining
- Spatial data mining
- Text video, multimedia data mining
- Web mining
- Pre-processing techniques
- Visualization
- Security and information hiding in data mining

Full Paper Due Date: April 4, 2010

Notification Date: May 31, 2010

Camera-ready paper Deadline: July 2, 2010

SUBMISSION OF PAPERS

All submissions should be original and not published elsewhere or intended to be published during the review period. All papers are to be submitted electronically in PDF format to the special session organizer. Details of the required paper format are published at the official IIHMSP' 10 website (<http://bit.kuas.edu.tw/~iihmosp10/>).

For further information, please contact:

Special Session Organizers:

Associate Prof. Ji Liping (jiliping@gmail.com) Computer Science Department, Harbin Institute of Technology, China.
