

The 13th International Conference on Intelligent Information Hiding and Multimedia Signal Processing (IIHMSP-2017)

August 12-15, 2017, Matuse, Shimane, Japan

CALL FOR PAPERS

SPECIAL SESSION: Recent Advances in Security and Privacy for Multimodal Network Environments

While the ever-increasing advancement in communication technologies brings a new era of application development, it paves more easy-to-use and powerful ways for adversaries to launch sophisticated attacks on multimodal network environments, such as Internet of Things (IoT), Cloud Computing, Smart Grid, Heterogeneous Networks, VANETs, Pervasive Computing and Cognitive Radio. Interest has greatly increased in the field of building more effective, intelligent, adaptive, active and high performance defense systems which are distributed and networked. As in short providing security and privacy in these new communication networks is one of the major challenges of the current era, this special session is intended to raise state-of-the-art research in the area of security and privacy for the next generation information systems under multimodal network environments.

Full Paper Due Date: **March 31, 2017**

Acceptance Notification: **April 15, 2017**

Camera-ready Paper Deadline: **May 1, 2017**

SUBMISSION OF PAPERS

Papers are invited from prospective authors with interests in this special session and related areas of application. All contributions should be original and not published elsewhere or intended to be published during the review period. Contributions from applied related fields in industry and commerce are very welcome. Details of the required paper format are available at the IIH-MSP-2017

website (<http://bit.kuas.edu.tw/~iihmsp17/>). For further information, please contact

Special Session Organizers:

Prof. Nai-Wei Lo (nwlo@cs.ntust.edu.tw)

National Taiwan University of Science and Technology, Taiwan.
