Call for Paper

Invited Session on Distributed Internet Computing and Internet of Things
Session Organizer: Prof. Guiran Chang

We are organizing an invited session on Distributed Internet Computing and Internet of Things for PCSPA2010, which will be held in Harbin, China on September 17-19, 2010. This session deals with new distributed Internet computing mode and its application in internet of things. Topics of interest include, but are not limited to:

1. Architecture and Platforms for Merging Pervasive Computing into Grid and Cloud Computing
2. Resource Management and Virtualization in Grid and Cloud Computing
3. Trust and Security Issues in Grid and Cloud Computing
4. Infrastructure and Security of Internet of Things
5. Interface, Standardization, and Platforms of Internet of Things
6. Technical Issues and Security of RFID in Internet of Things
7. Mobile Phones and Smart Devices in Internet of Things
8. Novel Approaches and Applications in Internet of Things and Pervasive Computing
9. Architecture, Protocol and Security of Wireless Sensor Networks
10. Applications of Sensor Networks in Internet of Things
11. Applications of Sensor Networks in Pervasive and Cloud Computing
12. Other topics related to Distributed Internet Computing and Internet of Things

Submissions:

Papers are invited from prospective authors with interest in the related areas of this special session. All contributions should be original and not published elsewhere. Each paper should follow the IEEE format with title, author's names, affiliation, email addresses, an up to 150-words abstract, and a two-column body with 4 single-spaced pages and with font size at 10 pts. Details of the required paper format are published at the official PCSPA2010 website (http://bit.kuas.edu.tw/~pcspa10/index.html). All
