The First International Conference on Pervasive Computing, Signal Processing and Applications (PCSPA2010) September 17-19, 2010 Harbin Institute of Technology, China

Call for Paper

Invited Session on Novel Approaches to Pervasive Applications

We are organizing an invited session on **Novel Approaches to Pervasive Applications** for PCSPA2010, which will be held in Harbin, China on September 17-19, 2010. This session deals with new technologies for pervasive applications using intelligent approaches. Topics of interest include, but are not limited to:

- 1. Pervasive applications using wavelet technology
- 2. Pervasive applications using support vector machines
- 3. Pervasive applications using quantum computing
- 4. Pervasive applications using fuzzy system, neural network, or grey model
- 5. Pervasive applications using hybrid intelligent model
- 6. Pervasive applications using Internet technology or QoS Guarantees
- 7. Pervasive applications using circuit simulation
- 8. Pervasive applications using wireless, ad hoc, or sensor network
- 9. Pervasive applications using embedded technology
- 10. Other emerging approaches to pervasive applications

Submissions:

Papers are invited from prospective authors with interest on the related areas. Each paper should follow the IEEE format with title, author's names, affiliation, email addresses, an up to 150-words abstract, and a two-column body with 4 single-spaced pages and with font size at 10 pts. Details of the required paper format are published at the official PCSPA2010 website (<u>http://bit.kuas.edu.tw/~pcspa10/index.html</u>). All papers must be submitted electronically in PDF format only and be mailed to: Prof. Bao Rong Chang at <u>brchang@nuk.edu.tw</u>.

Important Dates:

Deadline for submission May 20, 2010 Notification of acceptance June 20, 2010 Camera-ready deadline July 20, 2010
