Received July 2014; revised December 2014

Abstract. Please write down the abstract of your paper here. Suggested length of Abstract is around 200 words.

Keywords: Please write down the keywords of your paper here, such as, Watermarking, Video compression, ......

1. Introduction. Please write down the Introduction of your paper here....

2. Problem Statement and Preliminaries. Please write down your section. When you cite some references, please give numbers, such as, .....In the work of [1, 2, 3, 5], the problem of...... For more results on this topic, we refer readers to [1, 4, 5, 7] and the references therein....

2.1. Several definitions and theorems. Please write down your subsection.

Definition 2.1. System (1) is stable if and only if....

Lemma 2.1. If system (1) is stable, then.....

Theorem 2.1. Consider system (1) with the control law....

Proof: Let....

Corollary 2.1. If there is no uncertainty in system (1), i.e., $\Delta A = 0$, then...

Remark 2.1. It should be noted that the result in Theorem 2.1.....

Example 2.1. Let us consider the following example.....
\[
\dot{x}(t) = Ax(t) + Bu(t) + B_1w(t) \quad (1)
\]
\[
y(t) = Cx(t) + Du(t) + D_1w(t) \quad (2)
\]

3. Main Results. Here are the main results in this paper.....

Definition 3.1. System (3) is stable if and only if....

Lemma 3.1. If system (3)-(4) is stable, then.....

\[
\dot{x}(t) = Ax(t) + Bu(t) + B_1w(t) \quad (3)
\]
\[
y(t) = Cx(t) + Du(t) + D_1w(t) \quad (4)
\]

Theorem 3.1. Consider system (3) with the control law....

Proof: Let....

Corollary 3.1. If there is no uncertainty in system (3), i.e., \( \Delta A = 0 \), then...

Remark 3.1. It should be noted that the result in Theorem 2.1.....

Example 3.1. Let us consider the following example....

4. Control Design. In this section, we present......

Definition 4.1. System (5) is stable if and only if....

Lemma 4.1. If system (5) is stable, then.....

Theorem 4.1. Consider system (5)-(6) with the control law....

Proof: Let....

Corollary 4.1. If there is no uncertainty in system (5)-(6), i.e., \( \Delta A = 0 \), then...

Remark 4.1. It should be noted that the result in Theorem 2.1.....

Example 4.1. Let us consider the following example....

Corollary 4.1. If there is no uncertainty in system (5)-(6), i.e., \( \Delta A = 0 \), then...

Remark 4.1. It should be noted that the result in Theorem 2.1.....

Example 4.1. Let us consider the following example....

6. Conclusions. The conclusion of your paper is here.....
Table 1. Sample data
