Session Organizer: Prof. Bao Rong Chang

I am organizing a special session on **Novel Approaches to Pervasive Applications** for ISDA 2008, which will be held in Kaohsiung City, Taiwan on November 26 - 28. It brings together researchers working across this field to share their experience and discuss advanced techniques. Topics of interest include, but are not limited to:

1. Pervasive applications using wavelet
2. Pervasive applications using support vector machines
3. Pervasive applications using quantum computing
4. Pervasive applications using grey model
5. Pervasive applications using hybrid intelligent model
6. Pervasive applications using QoS Guarantees
7. Pervasive applications using circuit simulation
8. Pervasive applications using wireless networking
9. Pervasive applications using embedded technology
10. Other emerging approaches to Pervasive applications

**Submissions:**

Papers are invited from prospective authors with interest on the related areas. Each paper should follow the IEEE format with title, author's names, affiliation, email addresses, an up to 150-words abstract, and a two-column body with 4 single-spaced pages and with font size at 10 pts. All papers must be submitted electronically in PDF format only and be mailed to brchang@nttu.edu.tw.

**Important Dates:**

Deadline for paper submission ------ May 1, 2008
Notification of acceptance ------ June 1, 2008
Deadline for camera-ready manuscript submission ------ July 1, 2008

**For more information please contact:**
