

## **Invited Session on Theories and Applications for Social Network Security**

### **Session Organizer: Prof. Tianhua Liu & Dr. Hongfeng Zhu**

We are organizing a special session on Theories and Applications for Social Network Security for The International Conference on Computational Aspects of Social Networks – 2010 (CASoN 2010) which will be held in Taiyuan city in September 26-28, 2010. It aims to bring together social scientists, mathematicians, computer scientists, engineers, computer users, and students to exchange and share their experiences, new ideas, and research results about all aspects (theory, applications and tools) of intelligent methods applied to Social Network. Topics of interest include, but are not limited to:

- **Anomaly detection in social network evolution.**
- **Data protection inside communities.**
- **New security algorithm for Social Network**
- **Trust models for Social Network**
- **Security services for Social Network**
- **Security protocol for Social Network**
- **Security network coding for Social Network**
- **Biometric authentication used in Social Network**
- **Traditional algorithms and methods for network security used in Social Network**

### **Submissions:**

Papers are invited from prospective authors with interest on the related areas. Each paper should follow the IEEE format with title, author's names, affiliation, email addresses, an up to 150-word abstract, and a two-column body with 4 single-spaced pages and with font size at 10 points. All papers must be submitted electronically in PDF format only and be mailed to liutianhua@sina.com or zhuhongfeng1978@gmail.com.

**Proceedings will be published by IEEE CS press and indexed by EI and ISTP.**

### **Important Dates:**

The deadline for paper submission: **April 4, 2010**

The date for notification or reviewing result: May 31, 2010

The deadline for camera-ready paper submission: July 2, 2010

### **For further information, please contact:**
