

Call for Papers: Invited Session on Fast Logic Computation

Session Organizers: Prof. Jim-Min Lin and Chiou-Yng Lee

We are organizing a special session on **Fast Logic Computation** for CAsSoN-2010 (International Conference on Computational Aspects of Social Networks - 2010), which will be held in 26-28 September 2010, in Taiyuan, China. It brings together researchers working across the fields of fast logic computation theories/implementations to share their experience and discuss advanced techniques. Topics of interest include, **but are not limited to:**

1. Finite field arithmetic and its applications
2. Multiplier design
3. Computer arithmetic
4. Fault tolerant architecture
5. Others
