

Invited Session on Middleware and Component Technologies

Session Organizer: Prof. Zhou Chuan-Sheng

We are organizing a special session on Middleware and Component Technologies for The International Conference on Computational Aspects of Social Networks – 2010 (CASoN 2010) which will be held in Taiyuan city in September 26-28, 2010. It aims to bring together social scientists, mathematicians, computer scientists, engineers, computer users, and students to exchange and share their experiences, new ideas, and research results about all aspects (theory, applications and tools) of intelligent methods applied to Middleware and Component Technologies. Topics of interest include, but are not limited to:

- **Theories on Middleware and Component Technologies.**
- **Application on Middle and Component Technologies.**
- **New Models on Middleware and Component.**
- **Security on Middleware and Component.**
- **New security algorithm for Communication and integration.**
- **Security protocol for Middleware and Component based Systems.**
- **Traditional algorithms and methods for used in Middleware and Component Systems.**
- **Others.**

Submissions:

Papers are invited from prospective authors with interest on the related areas. Each paper should follow the IEEE format with title, author's names, affiliation, email addresses, an up to 150-word abstract, and a two-column body with 4 single-spaced pages and with font size at 10 points. All papers must be submitted electronically in PDF format only and be mailed to jasoncs@126.com.

Proceedings will be published by IEEE CS press and indexed by EI and ISTP.

Important Dates:

The deadline for paper submission: **April 4, 2010**

The date for notification or reviewing result: May 31, 2010

The deadline for camera-ready paper submission: July 2, 2010
