

Special Session on Intelligent Services and Applications

INTRODUCTION

We are organizing a special session on “Intelligent Services and Applications” for the International Conference on Computational Aspects of Social Networks, CASoN 2010, which will be held in Taiyuan, China on September 26-28, 2010. It brings together researchers working across this field to share their experience and discuss advanced techniques. Topics of interest include, but are not limited to:

1. Context awareness and applications
2. Ubiquitous computing
3. Sensors networks and its applications
4. Intelligent services robotics
5. Intelligent services at home
6. Intelligent services for healthcare
7. Indoor and/or outdoor Position Location
8. Hybrid method for Intelligent services
9. Intelligent Technologies for information management
10. Intelligent services for web system.
11. Others
