

## Session Organizer: Prof. Bao Rong Chang

I am organizing a special session on [Novel Approaches to Pervasive Applications](#) for HIS 2009, which will be held in Shenyang on August 12-14, 2009. It brings together researchers working across this field to share their experience and discuss advanced techniques. Topics of interest include, but are not limited to:

1. Pervasive applications using wavelet technology
2. Pervasive applications using support vector machines
3. Pervasive applications using quantum computing
4. Pervasive applications using fuzzy system, neural network, or grey model
5. Pervasive applications using hybrid intelligent model
6. Pervasive applications using Internet technology or QoS Guarantees
7. Pervasive applications using circuit simulation
8. Pervasive applications using wireless, ad hoc, or sensor network
9. Pervasive applications using embedded technology
10. Other emerging approaches to Pervasive applications

### Submissions:

Papers are invited from prospective authors with interest on the related areas. Each paper should follow the IEEE format with title, author's names, affiliation, email addresses, an up to 150-word abstract, and a two-column body with 4 single-spaced pages and with font size at 10 points. All papers must be submitted electronically in PDF format only and be mailed to [brchang@nttu.edu.tw](mailto:brchang@nttu.edu.tw).

### Important Dates:

Deadline for paper submission ----- **March 1, 2009**

Notification of acceptance ----- **April 1, 2009**

Final camera-ready papers due ----- **May 1, 2009**

**For more information please contact:**
