

Invited Session on Theories and Applications for Peer-to-Peer Overlay Networks

Session Organizer: Prof. Tianhua Liu

I am organizing a special session on **Theories and Applications for Peer-to-Peer Overlay Networks** for HIS 2009, which will be held in Shenyang on August 12-14, 2009. It brings together researchers working across this field to share their experience and discuss advanced techniques. Topics of interest include, but are not limited to:

- **New applications and protocols for P2P systems**
- **Security, privacy, anonymity, anti-censorship, and incentives for P2P systems**
- **Availability, robustness, performance, and scaling for P2P systems**
- **Measurement, modeling, and workload characterization for P2P systems**
- **Copyright protection in P2P systems**
- **Trusted P2P Network Computing**
- **Biometric authentication used in P2P systems**
- **New P2P application areas**

Submissions:

Papers are invited from prospective authors with interest on the related areas. Each paper should follow the IEEE format with title, author's names, affiliation, email addresses, an up to 150-word abstract, and a two-column body with 4 single-spaced pages and with font size at 10 points. All papers must be submitted electronically in PDF format only and be mailed to liutianhua@sina.com or tanzhenhua192@126.com.

Important Dates:

Deadline for paper submission ----- March 1, 2009

Notification of acceptance ----- April 1, 2009

Final camera-ready papers due ----- May 1, 2009
