

**The Fifth International Conference on Information Assurance and Security
(IAS'09)**

August 18-20, 2009

Xi'an, China

Call for Papers

Special Session: *Internet Security and Electronic Commerce Security*

Internet and electronic commerce have become part of our life and offered great rewards for companies. It also brings considerable risks for the embracers. Recently, security technologies are booming including firewalls, IDS, and related software and hardware. However, to achieve the whole security target for Internet and electronic commerce it requires much more than the mere application of such core technologies. It also depends upon interdependent technologies, software tools, standards, and infrastructures that are needed to enable the use of these core technologies on a large scale. The main purpose of this Special Session is to provide a forum for researchers to share their experiences in the security of Internet and electronic commerce and to further foster research in these areas.

Full Paper Due Date:	March 1, 2009
Notification:	April 1, 2009
Camera-ready Paper Deadline:	May 1, 2009

Submission of Papers

Papers are invited from prospective authors with interests in this particular special session and related areas of applications. All contributions should be original and not published elsewhere or intended to be published during the review period. Contributions from related fields in industry are very welcome. Details of the required paper format are published at the official IAS 2009 website (<http://www.ias09.org/>).
