October 16-18, 2013

Beijing, P.R. China

**CALL FOR PAPERS**

**SPECIAL SESSION: Devices Companion and Heads-up Interaction**

With the popularity of smart devices in recent years, there is more and more attention paid on the multi-device connectivity and heads-up interaction in both academia and industry. According to latest mobile phone markets research, more and more users hope to hold two or more mobile devices with good companionship. And the good device companionship may bring new UX of heads-up interaction when the browsing UI can be shown on a big screen or surface. This session is intended to provide an international forum for researchers and engineers to present their latest researches on the research topics in this field.
