The Ninth International Conference on Intelligent Information Hiding and Multimedia Signal Processing (IIH-MSP 2014)

August 27-29, 2014, Kitakyushu, Japan

SPECIAL SESSION: Multimedia Signal Processing and Network Technology

With the production of large amount of video and image data every day, people spend more effort and time in retrieving content and information from the data instead of enjoying browsing the content. This special session will provide a platform for international experts in multimedia signal and information processing; meanwhile, we encourage the display and presentation of network technology and multimedia systems. The scope of this special session includes, but is not limited to, the following:

- 1. image and video coding
- 2. image and video content description
- 3. image and video signal and information processing
- 4. surveillance and monitoring applications
- 5. network attacks and protocols technology
- 6. multimedia systems

Full Paper Due Date: April 15, 2014

Notification: June 1, 2014

Camera-ready Paper Deadline: July 1, 2014

SUBMISSION OF PAPERS

Papers are invited from prospective authors with interests in this special session and related areas of application. All contributions should be original and not published elsewhere or intended to be published during the review period. Contributions from applied related fields in industry and commerce are very welcome. All papers are submitted electronically in PDF format to the special session organizers. Details of the required paper format are available at the official IIH-MSP 2014 website (http://bit.kuas.edu.tw/~iihmsp14/). For further information, please contact:

Special Session Organizers:

Prof. Ke-Bin Jia, Beijing University of Technology, China

(kebinj@bjut.edu.cn)

Prof. Yan-Hua Zhang Beijing University of Technology, China

(zhangyh@bjut.edu.cn)

Prof. Yi-De Ma, Lanzhou Univiersity,

(ydma@lzu.edu.cn)
