The Tenth International Conference on Intelligent Information Hiding and Multimedia Signal Processing (IIH-MSP 2014)
August 27-29, 2014, Kitakyushu, Japan

CALL FOR PAPERS
SPECIAL SESSION: Intelligent Image and Signal Processing

Aims & Scope

This session deals with new technologies for intelligent algorithms and architectures for image and signal processing. This special session combines advanced research themes in multimedia systems, image processing, signal processing, as well as their applications. Topics of interest include, but are not limited to:

1. Image identification and its applications
2. Signal processing and its applications
3. Multimedia applications
4. Embedded VLSI design for multimedia signal processing

Submissions:

The related researches as well as industrial and commercial products are very welcome submitted to this special session. All contributions should be original and not published elsewhere or intended to be published during the review period. All papers are submitted electronically in PDF format to the special session organizers. Accepted papers will be published in the IIHMSP-2014. At least one of the authors of each accepted paper should register as a full participant of the workshop to have the paper published in the proceedings. Details of the required paper format are available at the IIH-MSP 2014 website (http://bit.kuas.edu.tw/~iihmsp14/).

Important Dates:
Full Paper Due Date: April 30, 2014
Notification: Jun 5, 2014
Camera-ready Paper Deadline: July 1, 2014
For further information, please contact:

Special Session Organizer:
Prof. Wen-Yuan Chen
Department of Electronic Engineering
National Chin-Yi University of Technology, Taiwan R.O.C.
