The Eleventh International Conference on Intelligent Information Hiding and Multimedia Signal Processing (IIH-MSP 2015)

September 23-25, 2015

Adelaide, Australia

SPECIAL SESSION: Big Data Security Analytics

This special session combines advanced research themes in network and industrial control system security. The special session will provide an international forum for researchers and specialists in the fields of network, cloud computing, and cyber-physical systems (CPS). The scope of this special session includes, but is not limited to the following topics:

1. Case studies and applications of network testbed
2. ICS/SCADA vulnerabilities, threats and risks
3. Risk assessment methodologies
4. Web security
5. Cloud computing security
6. Malware and botnets
7. Computational intelligence and network security
8. Big data and security analytics

Full Paper Due Date: **April 15, 2015**
Notification: **June 1, 2015**
Camera-ready Paper Deadline: **July 1, 2015**

Submission of Papers

Papers are invited from prospective authors with interests in this special session and related areas of application. All contributions should be original and not published elsewhere or intended to be published during the review period. Contributions from applied related fields in industry and commerce are very welcome. All papers are submitted electronically in PDF format to the special session organizers. Details of the required paper format are available at the official IIH-MSP 2015 website (https://easychair.org/account/signin.cgi?key=21971905.gTyMgSiuCYmwlw8n).
