Eighth International Conference on
Intelligent System Design and Application (ISDA-08)
November 26 – 28, 2008
Kaohsiung City, Taiwan

CALL FOR PAPERS

SPECIAL SESSION: *Intelligent System Design and Applications for Digital Home Users*

The technology of intelligent computing, particularly about smart-iving applications for residential users, demonstrates exponential-growth in research and industrials. To share the experiences of research, development, deployment and maintenance, this special session invites worldwide colleagues to present their contributions in (but not limited)

1. Software and hardware implementations/designs for intelligent home automation
2. Intelligent multimedia services for smart home
3. Intelligent multimedia communications and networks
4. Soft-computing applications for e-commerce, education, health-care, and learning.
5. Design methodology and algorithms for intelligent systems
6. Systems implementation for smart residential multimedia services
7. Performance evaluation and statistics study of intelligent systems for home users

Full Paper Due Date: May 1, 2008
Notification: June 31, 2008
Camera-ready Paper Deadline: July 30, 2008

SUBMISSION OF PAPERS

Papers are invited from prospective authors with interests in this particular special session and related areas of application. All contributions should be original and not published elsewhere or intended to be published during the review period. Contributions from more applied related fields in industry and commerce are very welcome. All papers are to be submitted electronically in PDF format to the special session organisers. Details of the required paper format are published at the official IIHMSP08 website (http://bit.kuas.edu.tw/~isda08/).

For further information, please contact:

Special Session Organizers:

Dr. Mong-Fong Horng (mfhorng@ieee.org), Dept. of Computer Science and Information Engineering, Shu-Te University, Taiwan, ROC
