

The Eighth International Conference on Intelligent Systems Design and Applications

November 26-28, 2008, Kaohsiung City, Taiwan

CALL FOR PAPERS

SPECIAL SESSION: *Datamining models and ontologies
Applications for corporate solutions*

The technology of intelligent multimedia services, particularly about models applications for systems and ontologies, demonstrates exponential-growth in research and corporations. To share the experiences of research, development, deployment and maintenance, this special session invites worldwide colleagues to present their contributions in (but not limited)

1. Designs models for datamining/implementations.
2. Models of Ontology/ implementations.
3. Management /automatic extract datamining models
4. Methodology and Technology for e-commerce, education, health-care, and learning.

Full Paper Due Date: May 1, 2008

Notification: June 1, 2008

Camera-ready Paper Deadline: July 1, 2008

SUBMISSION OF PAPERS

Papers are invited from prospective authors with interests in this particular special session and related areas of application. All contributions should be original and not published elsewhere or intended to be published during the review period. Contributions from more applied related fields in industry and commerce are very welcome. All papers are to be submitted electronically in PDF format to the special session organisers. Details of the required paper format are published at the official ISDA08 website (<http://bit.kuas.edu.tw/~isda08/>).
