

Call for papers

Invited session on **Machine Learning, Evolutionary Computation and Their Applications**
(ISDA08 The International Conference on Intelligent Systems Design and Applications,
Kaohsiung, Taiwan, Nov. 26-28, 2008)

Topics:

Machine learning and evolutionary computation have become key technologies and are playing today an important role in many academic and industrial areas. The aim of machine learning and evolutionary computation is to apply the mechanisms of human brain for solving many real-world problems and to achieve a robust and low cost implementation. This invited session is focused on machine learning and evolutionary computation, and their applications. The purpose is to exchange the new ideas, trends and current research results in applying these research fields. Both researches and practitioners are welcome to submit their contributed papers.

Paper Submission:

Papers are invited from prospective authors with interests in this particular special session and related areas of application. All contributions should be original and not published elsewhere or intended to be published. If you are going to submit your paper to our special session, please send the paper title, author list and abstract to the session organizers by **May 15, 2008**. Details of the required paper format for final camera-ready paper are published at the official ISDA08 website (<http://bit.kuas.edu.tw/~isda08/>).

Session organizers and chairs:

Prof. Ikuko Nishikawa

College of Information Science and Engineering, Ritsumeikan University

1-1-1 Nojihigashi, Kusatsu, Shiga, 525-8577, JAPAN

Phone: +81-77-561-2696, FAX: +81-77-561-5203

E-mail: nishi@ci.ritsumei.ac.jp

Prof. Yen-Wei CHEN

College of Information Science and Engineering, Ritsumeikan University

1-1-1 Nojihigashi, Kusatsu, Shiga, 525-8577, JAPAN

Phone: +81-77-561-5926, FAX: +81-77-561-5203
